

IZ Gateway Data Use Agreement Q & A Sessions

The Immunization (IZ) Gateway is a portfolio of components which share a common IT infrastructure. The IZ Gateway aims to rapidly onboard Immunization Information Systems (IIS) to support state readiness for COVID-19 vaccine response through data exchange, both among IIS and between IIS and federal providers/mass vaccination reporting and consumer access tools. The IZ Gateway aims to increase the availability and volume of complete and accurate immunization data stored within IIS and available to providers and consumers regardless of their jurisdictional boundaries.

The IZ Gateway offers tremendous benefit to the COVID-19 response effort:

IZ Gateway Portfolio Component	Benefit
Connect	Mass vaccination tool will route vaccination information to the IZ Gateway, and IIS need to connect to the IZ Gateway to receive this information.
Share	Vaccine is likely to be a multi-dose series: if patients receive doses across jurisdictions it is critical to share this information between IIS
Access	Enable consumer access to online immunization sets groundwork for consumer access models for immunity certifications
Provider-Initiated Multijurisdictional Query Exchange	Receive consolidated vaccine record from multiple states where needed

States are highly encouraged to participate in both Connect and Share for mass vaccination information sharing through the IZ Gateway. The IZ Gateway requires that all participants execute its Data Use Agreement. To maximize flexibility for jurisdictions, the DUA is structured so that it is modular. Execution of the DUA means that the state is agreeing to participate in Connect. Should a state wish to participate in an additional project component(s), it can go ahead and sign the Task Order at the same time. If a state needs to wait on a project component, it may always sign the Task Order at a later date.

Come join your peers for an informal discussion around the DUA. Bring your questions to the session and have them answered by one of the DUA authors!

Q & A Session Schedule

Thursday, August 13 from 3 - 4 pm ET

Thursday, August 27 from 3 - 4 pm ET

Thursday, September 3 from 1 - 2 pm ET

Friday, September 18 from 11 - noon ET

Thursday, September 24 from 3 - 4 pm ET

How to Participate
